**American Tree Farm System®
Independently Managed Group (IMG) Certification Standards**

Introduction

The American Tree Farm System ® (ATFS) Independently Managed Group (IMG) Certification Standards (2015-2020) contain the requirements for the implementation by, and independent certification of, group organizations that manage a number of group member properties under one centrally administered program. The Group Organization holds the single certificate on behalf of the Group Members. This process is referred to throughout the document as “group certification.”

The ATFS IMG Standards take effect on January 1, 2015, for all new Group Organizations. For Group Organizations with current ATFS IMG certificates, 2015 will be an implementation year during which adjustments will need to be made to the program to bring the IMG into conformance with the requirements contained herein. The next regularly scheduled surveillance audit after July 31, 2015, would be required to conform to these standards.

Generally, the Group Organization administers the overall functions of the group and coordinates certain activities, such as:

- ensuring conformance to the AFF Standards of Sustainability,
- administering entry and departure of members,
- maintaining records and reporting,
- conducting ongoing monitoring,
- managing the group certification process.

The 2015-2020 version of the ATFS IMG Certification Standards replaces the 2010-2015 IMG Standard Operating Procedures. In addition to these ATFS IMG Certification Standards, there are a number of other ATFS standards, policies and guidelines that should be followed to effectively achieve independent certification and conform to overall ATFS requirements.

Those standards, policies and guidelines include:

AFF 2015-2020 Standards of Sustainability for Forest Certification and Guidance
ATFS Eligibility Requirements
ATFS Logo Use Guidelines
ATFS Signage Use Guidelines
ATFS Group Certification Reporting and Invoicing
AFF Disputes and Appeals Procedures

Types of Group Members

ATFS has identified three categories of Group Members for purposes of completing annual reporting and submission of annual fees to ATFS. Group organizations seeking certification through the ATFS IMG program must categorize Group Members into one of three categories listed below.

The designation of the three categories of Group Members is for the exclusive purpose of ATFS annual reporting and fees. Reporting forms are released to Group Organizations at the beginning of each reporting year and will detail the reporting requirements for each category.

The three types of Group Members are:

Category 1 Group Members retain final decision-making authority for management activities to be conducted on their property. This category may include individuals, family ownerships, LLCs and other similar entities. The Group Member may, through contract or other agreements, utilize the Group Organization's services for some or all management activities. Group Members may also participate in group management plans where management decisions and responsibilities are shared between the Group Organization and the Group Members.

Category 2 Group Members have knowingly and affirmatively delegated full management responsibility for implementation of the AFF Standards to the Group Manager. Category 2 properties are under aggregated ownership as part of an investment fund portfolio. The Group Organization as the management consultant assumes overall operational management responsibility and performs all of the functions required for conformance to the AFF Standards. This category may include properties that meet the ATFS eligibility requirements and are managed by a Timber Investment Management Organization (TIMO). Category 2 Group Members include those entities referred to as Aggregated Management Groups (AMGs) in the ATFS Eligibility Requirements and Guidance.

Category 3 Group Members are government entities. The property owner may have knowingly and affirmatively delegated full or partial authority for management and decision-making to the Group Manager, or the owner may retain all management authority. The Group Organization may perform some, or all, of the functions required for conformance to the AFF Standards. Examples of Category 3 members are: a local municipality, a public grade-school, a public university, a publically owned watershed authority, a tribal government, a state or federal agency.
